Indicative reference values (demonstration data).

INSTALLATION

- A cut-out template for the worktop is supplied; central Ø 70 mm hole for the drain.

- Bed on a bead of neutral silicone; do not tighten the waste beyond 12 Nm.
- Check level before the silicone cures (24 h).

CARE & MAINTENANCE

- Clean with a microfibre cloth, water and neutral soap; do not use solvents or concentrated bleach.
- Surface marks are restored by gently sanding with 400 grit and applying polishing cream.
- Avoid prolonged contact with hair dyes or products with intense pigments.
